County Meeting Reports

Will Bury Telephone Lines on West Road

SCHOOL COMMITTEE MEETING

The regular February meeting of the School Committee of the County of Vulcan No. 2 was held on Monday, Feb. 8. Chairman of the committee, J. M. McKay, presided and committee members Frank Thurber, A. McAllister, Earl Erickson, Ray Wellman, George Moses and Eugene Burris were present. Also present at the meeting were E. K. Hawkesworth, superintendent and D. D. McQueen, secretary-treasurer.

Mr. Hawkesworth quoted a number of items from the report of the high school inspectors on the visit made to the County Central High School at Vulcan, and one of the principal recommendations made by the inspectors was that the county should consider providing a guidance officer for the school. Mr. Hawkesworth recommended that Leo Burton, teacher in the Lomond School, be offered the position of guidance counsellor in the County Central High School. It was moved and carried that Mr. Hawkesworth's recommendation be adopted and Mr. Burton be asked to accept the position of guidance counsellor in the County Central High School at Vulcan.

Mr. Hawkesworth spoke of the forthcoming project for inter-visits of school children throughout Canada, and advised that the County of Vulcan had been selected as one area where students would leave on a visit and also an area in which students from another part of Canada would visit. It was noted that there would be 24 students selected from the County to make this trip, and the method of selecting these was discussed. Mr. Hawkesworth suggested that the selection should be made primarily on the basis of geographic locations so that each part of the County would be represented on this trip, and that students coming into the County would be billeted with parents of students who had left on a visit where it was thought advisable. The suggestion to select students on a geographical basis and other qualities of personality and conduct was approved and Mr. Hawkesworth was authorized to prepare a questionnaire for the purpose of obtaining information in respect to the students to be selected.

The secretary-treasurer presented the list of requests for equipment from the principals. It was noted that the lists were quite extensive in most cases, and the approximate costs of the complete list would be \$20,000. The general opinion of the committee was that this figure was a great deal in excess of the amount which was considered to be available for this purpose, and after discussing the matter, it was decided to adopt the policy of supplying equipment on the basis of \$3.00 per pupil.

The matter of Student Union funds was brought before the committee and it was noted that in many cases, Student Union funds amounted to a considerable amount of money and it was felt that some record and information should be filed in the county office respecting the Student Union activities. It was felt that the committee should not interfere with Student Union activities, but that the unions should conduct their affairs in an orderly and business-like manner which would be reflected in a proper statement of operations for the year.

The secretary-treasurer was instructed to write to the principals and point out this matter, and ask that the Students Union bodies be properly organized with officers and that proper books and accounts be kept so that a complete statement of revenue and expenditure might be submitted to the county office at the end of the school term.

The secretary reported to the committee that arrangements had been made to interview the School Buildings Branch in Edmonton in respect to the Arrowwood addition, that the meeting would be held at 2:00 o'clock on the afternoon of Feb. 16. A committee composed of Mr. McKay, Mr. Burris and the secretary-treasurer was authorized to present the county's request again for a new structure.

It was moved and carried that the county request J. Stevenson & Associates, Architects, to prepare a plan for the rebuilding of the old rooms at the Brant School.

The Teachers Economic Committee composed of R. Toutant, Don Green and Mrs. Carrie Gra-

ham interviewed the committee in respect to salary negotiations for the 1965-66 school term. The discussions will be continued at a later date.

It was decided that the school committee be represented by a bargaining committee consisting of Mr. McKay, Mr. Thurber and the secretary-treasurer.

MUNICIPAL COMMITTEE MEETING

The regular meeting of the Municipal Committee of the County of Vulcan No. 2 was held on Wednesday, Feb. 10. Committee Chairman Ivan Haga presided and Committee Members M. Willard, A. W. Ulrich, F. E. Hubka and D. McNiven were present. Also present at the meeting were J. O'Reilly, Martin Dersch, Robert Brown and D. D. McQueen, secretary-treasurer.

A letter from Alberta Government Telephones in respect to the cost of moving buried cable was read. The letter stated that the company would charge \$250 per mile for moving cable in the event that the county widened the road by buying right-of-way. The members of the committee took note of this information and felt that while it was disappointing that the company required this regulation, it was understandable due to the fact that highways could be used for other purposes that road transportation.

A letter from Alberta Government Telephones advising that the telephone line west of Vulcan would be buried in the near future and giving particulars of the project was read. It was moved and carried that this matter be approved.

A letter from the Board of Transport Commissioners in respect to the railway crossing immediately north of Ensign was read. It was noted that the CPR had made application to the board for permission to close the crossing as a public crossing and leave students who had left on a visit where it was thought advisable. The suggestion to select students on a geographical basis and other qualities of personality and conduct was approved and Mr. Hawkesworth was authorized to prepare a questionnaire for the purpose of obtaining information in respect to the students to be selected.

A letter from the Bridge Branch, Department of Highways, in respect to improvement of the road W/SW 14-17-25-4, was read. The letter included a sketch plan to install a large culvert. It was moved and carried that the county approve the department's plans for this culvert installation.

N. H. Bradley, engineer, was present at the meeting and discussed with the committee plans and specifications for the proposed paving on the Lomond and Milo roads.

COUNTY COUNCIL MEETING

The regular February meeting of the Council of the County of Vulcan No. 2 was held on Friday, Feb. 12. Reeve Jack Deltz presided, and Counsellors F. E. Hubka, A. W. Ulrich, Ivan Haga, Robert S. Irwin, Earl Erickson, A. McAllister, M. Willard, J. M. McKay, Frank Thurber and Donald A. McNiven were present. Also present at the meeting was D. D. McQueen, secretary-treasurer.

A letter from the Southern Alberta Alternate T.V. Association in respect to the proposal to establish a satellite at Picture Butte was read. The letter stated that this satellite would be a great benefit to people in the area and it was noted that it would serve a good portion of the residents of the County of Vulcan as far north as Carmangay or Champion. The letter asked for financial support and also a resolution. It was moved and carried that the county donate the sum of \$25 to the Southern Alberta Alternate T.V. Association and that support be given to the association in their efforts to have the Board of Broadcast Governors approve the erection of this satellite.

M. R. Morrison interviewed the council in respect to obtaining the use of the county's hangar at the airfield for the purpose of conducting an auction sale of farm machinery. The sale would be held on Saturday, March 27, and that it would be necessary for him to have access to the building for two or three days prior to the sale. Mr. Morrison offered to pay any extra insurance charges as well as the rent. It was moved and carried that the council authorize the rental of the hangar to Mr. Morrison for the sum of \$100 plus out-of-pocket expenses to cover extra insurance.

County Central High School Snow Queen grade 12 student Susie Robertson is shown above with her crown, robes and bouquet of flowers and flanked by her two

ladies-in-waiting, Ina Haverty, left and Mary Stein, right, following crowning ceremonies at the school dance last Friday night. Students' Union president Tony Munton, introduced the girls and had the honor of placing the crown on the head of Miss Robertson. The queen is a daughter of Mrs. Neilsen Robertson of Vulcan.

Snow Queen Crowned At School Dance

A lesson in the organization and administrative problems encountered in the outside world was learned the hard way by students of County Central High School in the staging of the Snow Queen Ball last Friday night.

With hours of planning and decorating in the auditorium behind them the students executive found themselves without an orchestra the day of the biggest dance of the year. A group which had been

promised from Calgary became unavailable and late Friday afternoon the students were still frantically searching for a replacement orchestra. A threesome from Carleton Place and Gordon Goldhawk of Vulcan on drums was finally secured and the dance went on.

A wishing well in the center of the auditorium and red and white streamers on the walls provided a gay background for the mid-evening introduction of three contest-

ants in the Snow Queen contest, Ina Haverty, Susie Robertson and Mary Stein. Earlier in the week the girls had been interviewed by the panel of judges, Mrs. Jane Jamison, Mrs. Donna McAskill and Gary Jopling and Mrs. Jamison made the final announcement of the winner at the short ceremony. Girls were chosen on such attributes as personality, poise, school marks, beauty and on contest ticket sales.

Ice Carnival At Lomond Well Attended

The first ice-carnival in the Lomond Civic Centre was held Saturday evening. More than 80 children, pre-school and school-age took part. In the grand march all the students of the figure skating club took part and were later joined by the pre-schoolers, who were costumed as bunny rabbits.

Other numbers were a square dance on skates, the Dutch and European waltzes, a swing number, "April in Portugal" done by the private students of Mrs. Roberta Davis, assisted by Mrs. H. Crawford. The program concluded with some very interesting races, when all participants were in costume.

A fine attendance of parents and friends enjoyed the varied program. Mrs. Allan Lindsay is president of the skating club, while Mrs. B. Mays serves as secretary.

60th Anniversary For Mr. and Mrs. James Lucas

Pioneer residents of the Vulcan district, Mr. and Mrs. James Lucas of Calgary celebrated their 60th wedding anniversary on February 27, 1965.

They were married in Blackpool, England in 1905 and started farming in the Vulcan district in 1910. They have resided in Calgary for the past 20 years and are still active and in good health.

Members of their family were with them to celebrate the memorable occasion and relatives from Vancouver and Victoria also attended.

125 In Attendance

Rev R. J. Pelham Speaker At Father-Son Banquet

One hundred and twenty-five Cubs, Scouts, fathers, guests and Lions Club members took part in the annual Vulcan Cub and Scout banquet held Saturday night in the Vulcan Lodge Hall.

In addition to their role as fathers at the banquet, members of the Lions Club donned aprons and dished up the meal for the Cubs and Scouts and were on hand when the call for seconds came.

Jerry Wylie, assistant district commissioner for Lake McGregor brought greetings from the town and Alex Price proposed a toast to the fathers which was replied to by W. H. Richardson.

A message of encouragement was brought by Roy Deal, president of Lions Club, sponsors of Scouting in Vulcan, followed by a toast to the boys by J. L. Findlay, replied to by Gordon Marshman.

Greetings from the Vulcan Group Committee were extended by George Richardson.

A review of the recent Queen's Scout ceremonies was given by Leader Ken Houlton during which he complimented local Queen's Scouts on their accomplishments. Scouter Douglas Roe then presented Mr. Houlton with a pencil holder made by the Scouts and Mrs. Houlton was given a bouquet of flowers on behalf of the Queen's Scouts.

Greetings from the Lake McGregor District Council were conveyed by chairman J. V. Christensen.

To conclude the evening an enjoyable film of the Scouts World Jamboree of 1964, held in Greece, was shown.

Guest speaker Rev. R. J. Pelham of the Vulcan Church of Christ first gave a brief review of Jesus' story of the Good Samaritan and from it he applied three parts of a code which might be applied to the lives of the Cubs and Scouts.

He enlarged upon a story based on a deed half-way done and went on to stress that the fulfillment of the Boy Scout Law and Promise and living up to the motto were not things that could be only partially adhered to. He told the boys they must always try to live by their promise, "On my honor I promise to do my best, to do my duty to God and the Queen, to help other people at all times and to obey the Scout Law."

Finally, turning to the fathers, Mr. Pelham spoke of the challenge facing them in their obligations to help mold the future of their sons into men able to stand alone and be a tribute to society.

Sr. Boys Team Wins Basketball District Playoff

Vulcan CCHS senior boys basketball team competed in the South Central Alberta district playoffs at Olds on Saturday, Feb. 27, and defeated Turner Valley in the final game. The team now advances to the Alberta finals.

The senior girls basketball team, playing in a tournament at Mount Royal College, Calgary, on February 27, lost by one point to High River in the final game.

Hearings Suspended

Seek Supreme Court Ruling On Government Act

Validity of the Alberta Communal Property Act will be ruled on by the courts and, meanwhile, proceedings by the attorney-general against the Rock Lake Hutterite Colony, six individual Hutterites and eight men who sold land in the Brant area to them have been adjourned.

The Hutterites claim, in a statement filed with the Supreme Court in Calgary, that the Act is ultra vires of the Alberta legislature, illegal and discriminatory. Introduced in 1942 and amended several times since, the act requires Hutterites to get cabinet approval for any expansion of colonies or the establishment of new ones. In Saskatchewan and Manitoba, the Hutterites have agreed to voluntarily control land purchases. There are 1,600 members of the sect in Saskatchewan, 1,900 in Manitoba and 6,500 in 67 colonies in Alberta.

It is anticipated that any Alberta Supreme Court ruling on the Communal Property Act will be carried to the Supreme Court of Canada.

Fire Prevention Films Shown

Inspector Andy O'Toole of the Provincial Fire Commissioner's office in Lethbridge showed two films Friday afternoon, at 4, 5 and 7 o'clock, in the staff room of the Vulcan hospital.

Attended by the different shifts of the hospital personnel, ambulance crew, first-aiders, and members of the Vulcan Fire department, the films dealt with hospital evacuation, and fire prevention.

Also shown was emergency lifting and removal of patients. Each showing of the film was followed by a practice period during which all persons practiced these emergency lifts. Some 50 persons were in attendance.

Two well qualified adjudicators have been secured in the persons of Mrs. Dorothy M. Glock, ATCM (Voice and Piano), Lethbridge, who has had much experience in festival work, and Dr. Malcolm Brown of the Department of Fine Arts, University of Alberta, Calgary. Dr. Brown received his degree of Bachelor of Music at the University of Montreal and his Doctor of Education degree at the Florida State University.

Sixth Annual Fish & Game Banquet Friday

All is in readiness for the Sportsmen's Night this Friday which will see hunters and fishermen of the Vulcan and District Fish & Game Association, look back on their sixth year of operation and ahead to the events of another 12 months.

With the growth of the local association to its present 400 members has come an increasingly heavy agenda for this annual supper, business and entertainment session but brevity will be stressed this year and a couple of other new wrinkles will be added to the program.

Supper will be served on the main floor of the Vulcan Lodge Hall with catering to be done by the ladies of the Royal Purple. Speeches, presentation of reports and various trophies will all take place at the same location following the banquet.

Also to be introduced are Alberta Fish and Game President Henry Lembez of Blackfalds and Bruce Stewart, secretary-manager of Alberta Fish and Game, from Calgary.

Water Problem Discussed At Champion Meeting

The annual meeting of ratepayers of the Village of Champion was held in the village office on Monday, Feb. 22. There were 10 people present. K. H. Bloxham was appointed chairman and Mrs. Daisy Keenan was secretary.

The financial statement for 1964 was read and discussed. A substantial surplus was noted and those present commended the Council for administering the village's affairs so well.

The ever-present water problem was also discussed. The Council assured everyone present that it was doing its utmost to insure a full reservoir this year from the runoff. Other possible sources of water and means of securing this was discussed. A permanent pipeline from the river did not seem practical to the Council in view of the great expense involved. However, rental of pipe from the Provincial Government had also been investigated and the cost of this was not prohibitive and in the event that a run-off was not assured the Council felt that this would be the solution to the problem.

The ratepayers present expressed their appreciation to the Council for work done in the past and for their confidence the Council would continue to do a good job of Village administration in the future.

I have noticed that the new "Instant blending flour" appears on most grocer's shelves now. It is a fine granular flour which mixes instantly with liquids and dry ingredients but because of the structure of the flour granule, more liquid than usual must be added. This new type of flour is produced by a process of agglomeration. Tiny granules are stuck together to form larger granules.

According to its manufacturers, its big selling point is the fact that gravies and sauces can be successfully made using it, with no chances of lumps appearing.

When using it, dry ingredients cannot be sifted together as the flour runs quickly through the sieve. So in order to mix the dry ingredients, they have to be stirred together thoroughly rather than sifting. It resembles salt the way it pours, and unlike ordinary all-purpose flour, pours dust-free.

It's manufacturers claim that it can be used in any recipe calling for all-purpose flour. So far, I have only used it for a white sauce, so am unable to recommend which products it is most successfully used in. At first when preparing the white sauce I was a little dubious. The color was quite yellow and although it was lump-free its surface looked slightly curdled to me. However, after thoroughly cooking it and then sampling, the flavor was good and the feel could not have been

NEW CROP VARIETIES

Several new crop varieties have recently been recommended for use in various parts of Alberta.

One of these is a Polish rapeseed variety called Echo. O. G. Bratvold Supervisor of the Provincial Crop Improvement Service, advises producers growing Polish rapeseed to change to Echo as soon as supplies permit. Echo has yielded up to 2,500 pounds per acre since it was released last year and has a stronger straw than the common Polish rapeseed.

Pendek is a new variety of medium-early Oats which has a strong short straw. This feature makes it particularly valuable in areas where lodging is a problem. Mr. Bratvold says it is also recommended for areas where too much straw creates a problem from the point of view of working the straw into the stubble without resorting to burning.

A new variety of wheat, known as Park, is noted for its early maturity. According to Mr. Bratvold it is especially designed for areas where the growing season is a bit short as is often the case in the black and grey-wooded soil zones. Although Park gives a slightly lower yield than Thatcher, it is easier to thresh and does not bleach readily.

Mr. Bratvold points out that there is always one crop variety which fits the conditions of each farm better than any others. He recommends using this variety and buying certified seed to be sure that nothing else is planted with it.

The world's longest natural gas pipeline stretches 2,294 miles from the Alberta-Saskatchewan border to Montreal, including gathering, transmission and distribution lines. Canada now has more than 30,000 miles of natural gas pipelines.

IN MEMORIAM

SPANKE—In loving memory of our dear mother and grandmother, Pauline Spanke who passed away March 6, 1964.

Faithful Mother, both true and kind,
A truer mother you could never find.

For all of us she did her best,
We know God grants her eternal rest.

—Always fondly remembered by Geraldine, Leona and Lyle and families. 30-1x

SPANKE—In loving memory of my dear wife Pauline, who passed away March 6, 1964.

I have lost my soul's companion
A life linked with my own;
Day by day I miss you more
As I walk through life alone.

—Lovingly remembered by her husband Leo. 30-1x

JACKSON—In loving memory of Elise Jackson, who passed away Feb. 26, 1950.

In our heart your memory lingers

Sweetly, tender, fond and true,
There is not a day goes by
That we do not think of you
Memory Lane is a little path
Where hearts are forever true
A path we travel again and again

Because it leads to you.
—Ever remembered by her husband, daughter, mother, father and brothers. 30-1p

MATLOCK—In loving memory of our dear son and brother, F/Sgt. Elmer Keith Matlock, missing from flight over Verdun, France, March 8, 1943.

Twenty-two long years have passed
Since our great sorrow fell,
The shock that we received
That day
We still remember well.
How his life was shed
We know not;
What his last word or thought,
Only that he did his duty—
Died as he bravely fought.
—Ever remembered by his Mom, Sister and Brother. 30-1x

DECKER—In loving memory of Mathias (Mat) Decker who passed away March 5, 1963.

Sunshine fades and shadows fall,
But sweet remembrance
Outlasts all.
—Ever remembered by his wife Violet, daughter Beverly, and sons Donald, Pierre and Gordon. 1-x

(Continued From Front Page)
Mr. Irwin reported on activities of the Agricultural Service Board and noted that there was very little to report since the last meeting. He discussed the matter of representation from the area of the County of Vulcan included in the Blackie Seed Cleaning Ass'n district, and stated that it was difficult to obtain a director to represent the shareholders in that area.

It was moved and carried that the application from the Alston Community Hall for a recreational grant in the amount of \$800 be approved.

It was moved and carried that the applications from the Shouldice Community Club and the Queens-town Community Hall Association for recreational grants in the amount of \$800 each be approved.

A delegation from the Vulcan & District Recreation Association, headed by Boyd McKay and W. H. Richardson, interviewed the council in respect to forming a recreational area surrounding the town of Vulcan in order to make application for the \$10.00 per capita recreational grant. After discussing this matter for some time, it was decided to telephone the Director in Edmonton to ascertain if it was possible to obtain such a grant from the residents surrounding the Town of Vulcan. Information was received from the telephone call that the Town of Vulcan had already obtained such a grant and that there was no further fund available to the Town. No action was taken to proceed with the formation of the recreation area.

It was decided to hold the next meetings as follows:

School Committee— Tuesday, March 23, 10:00 o'clock, Municipal Committee— Wednesday, March 24 10:00 o'clock and County Council— Friday, March 26, 10:00 o'clock.

It was regularly moved and carried that the council hold the Court of Revision to hear complaints against the 1965 annual assessment on Friday, March 26 at 4:00 o'clock in the afternoon.

English 30 is being taught by Miss Marion Mackay in the photo above in the new wing of County Central High School. This is the conventional type of room and those who toured the school as part of the official opening program were struck with the refinements of modern day education. Gone are the old style globe lamps which hung from the ceiling. In their place are new banks of floor-

escent lights. Gone are the rows of old heavy desks — with the lift-up tops — which were bolted to the floor. Missing are the oiled floors and dark colored walls and roll-up window blinds of school rooms of another year. About the only familiar items remaining are the blackboards, chalk, teachers, homework, and another generation of students.
